

# Orbit Vibration Machine

VM003

## *Increased production of 'Happiness Hormones'*

Aiding sportsmen and women with the recover after a workout,

People with debilitating conditions such as osteoporosis, arthritis, multiple sclerosis, Parkinson's Disease, and stroke victims can yield the benefits of exercise while working within their personal limitations and minimizing stress on the joints and ligaments.

Research suggests Vibration Technology may increase the production of regenerative and repair hormones, improve blood circulation, strengthen bone tissue, improve lymph drainage and increase basal metabolic rate.

Oscillating platforms may support skeletal realignment.

### Benefit of Vibration Machines

- Improved muscle strength and performance
- Increased stamina
- Increased flexibility, mobility and coordination
- Reduced aches & pains
- Enhanced critical blood flow throughout the body
- Increased bone density
- Enhanced 'explosive strength'
- Accelerated weight loss
- Improved collagen production and skin tone
- Reduced appearance of cellulite
- Decreased cortisol levels
- Increased production of 'happiness hormones' - serotonin and neurothrophine
- Improved recovery from injury
